COURSE :- CSA0702

(SLOT-B)

MODEL LAB

① ARP & HTTP (Using Wireshark).
To implement

■ Aim :- Network layer protocol headers analysis using Wireshark - ARP and HTTP

■ Software used :- Wireshark.

■ Procedure :-

Step 1 :-

* Search Wireshark application on your system

* Step 2 :- Double tap on the application, it will open

* Step 3 :- Then select the network type from the listed

* Step 4 :- Suppose you are selecting wifi.

* Step 5 :- Then a window will be opened.

* Step 6 :- There you may see the list of packets

* Step 7 :- Select any one IP Address.

* Step 8 :- Double click on the IP Addresses.

* Step 9 :- That shows all the packets sending from the source to destination.

Output:-

File Edit View Go Capture Analyze						
No	Time	Source	Destination	Protocol	Length	Info
1	0.000	35.165.52.209	192.168.43.65	TCP		
2	3.311547	Intel-f1	12:d3:05:d1	ARP	42	who has 192.168.43.65

Frame 9: Packet, 42 bytes on wire (capture length 42) captured on interface Ethernet1/1, Src: Intel-f1 (10:be:00:00:00:00), Dst: 12:d3:05:d1:00:00

Address Resolution Protocol

Result: ~~✗~~ The output was successfully obtained.

② IOT gardening system (using Cisco packet tracer).

■ Aim:- To implement smart gardening using Cisco packet tracer

■ Software used:- Cisco packet tracer

■ Procedure:-

Step 1:- Open Cisco packet tracer app on your system.

Step 2:- Go to End Devices section

Step 3:- Click wireless components which will be at the bottom of screen right side.

Step 4:- Click Home gateway from the components

Step 5:- Now search for the sprinkler in the End Devices section

Step 6:- Humiture & Monitor. also select & Drag it to the workspace.

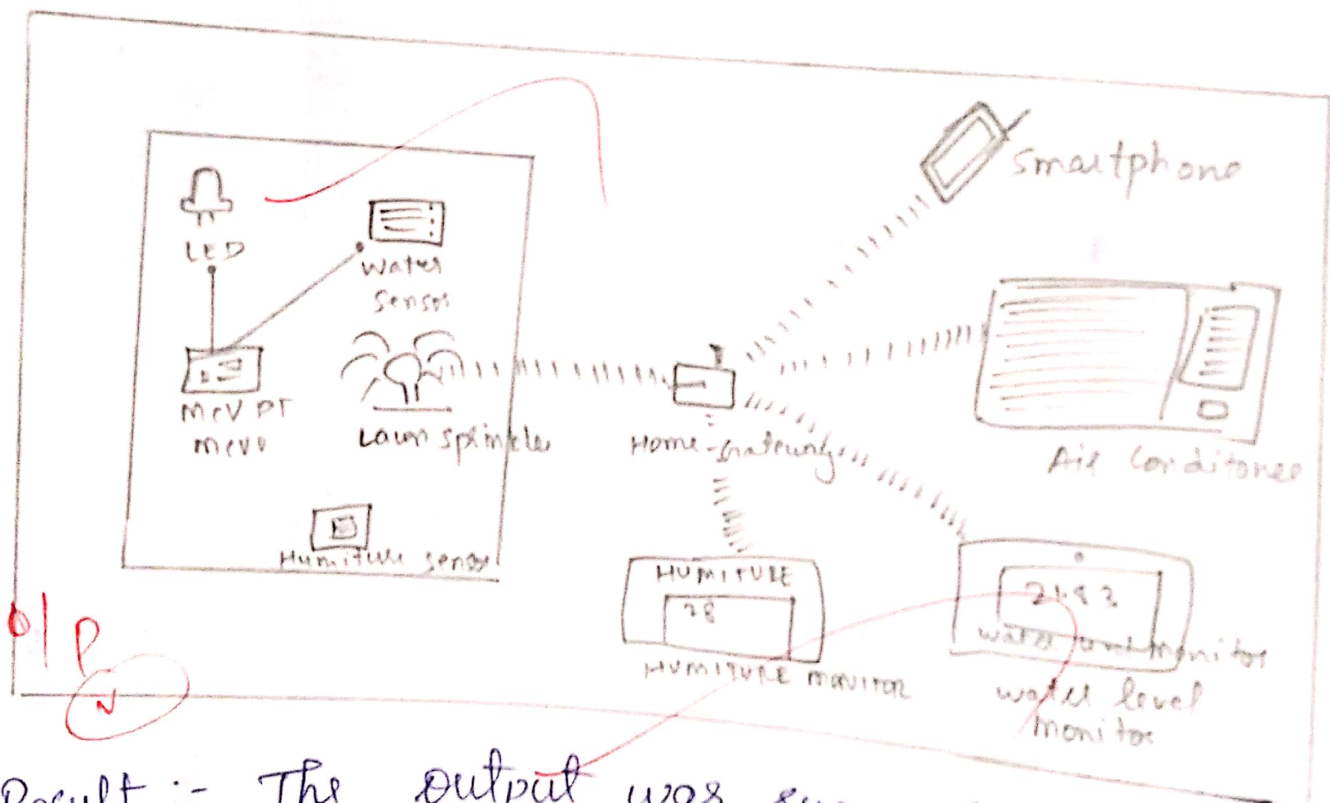

Step 7:- Click smartphone from the components & drag it to the work space.

Step 8:- Click on the smartphone & select the IP Address and make it same for Home gateway as well as for Sprinkler & Humiture & monitor.

Step 9:- In Smartphone click advanced and go to desktop & click monitor IOT & login.

Step 10:- Now on each component.

Output:-

Result :- The output was successfully obtained.
